

Meet your teacher

Hi everyone,

It's going to be a very different experience for me next year working in many different classes across the academy. I'm looking forward to working with so many different children on lots of exciting topics.

I love teaching many different subjects and am thrilled to have the opportunity to teach different skills in different year groups. One of favourite subjects is art; hopefully I will get to do some of this with your class over the year.

I'm really looking forward to getting to know lots of different classes and working with so many amazing young people!

I really enjoy music and films. I especially love animation and really enjoyed the 'Spiderverse' films because the animation is similar to the comics.

As many people at school know, my favourite film of all time is Toy Story. I also love Donald Duck

In my spare time I like getting crafty, doing some drawing, painting and sewing.

My family and I love football. We are big Liverpool FC fans and my daughter plays football in a girls and a mixed team.

I love to travel and see lots of different places and cultures. When I travel I love seeing the nature in different places.

My favourite animal is an elephant and I met some when I went to Thailand a few years ago.

My family and I all love Disney and have been lucky enough to go to Disney world. Our family favourite is Stitch. He's so mischievous but full of love and friendship. Growing up I loved Peter Pan and enjoyed meeting him but I don't think he felt the same!
